

Supporting Michigan and Northern Ohio

810.732.1970

Automation

FESTO

Pneumatic valves, air filtration, cylinders, electromechanical actuators, motors, drives & controllers

Power supplies, ethernet switches, terminal blocks, PLC, HMI's, remote connectivity & safety
-Michigan only-

PLC, HMI, servo control systems, VFD's, motion controllers, SCADA, robots

Collaborative cage free industrial robots with payloads of 3kg, 5kg, 12kg, 16kg & 20kg

EUCHNER

Safety devices; transponder & magnetically coded gate switches, multi-functional gate entry boxes, electromechanical safety switches.

Sensor Intelligence.

Photoelectric sensors, safety switches, laser area scanners, light curtains, barcode readers, optical distance sensors

Industrial, packaging, and sanitary conveyor needs

Vacuum: cups & generators, gripping systems, handling systems
-Southeast MI only-

Cylinders: NFPA, disposable, pancake, multi-power, custom cylinders

Encoders; absolute, incremental, linear, programmable, stainless steel

Cable entry systems, cable glands, strain relief, conduit systems

4D vision for robotic automation, robotic bin picking

Signaling devices; LED stack lights, LED panel lights, audible signal towers

Through door convenience ports with ethernet ports, GFCI outlets, voltage indicators

Industrial computers, panel PC's, HMI and industrial displays, serial converters and embedded PC's

HMI's; all in one PLC/HMI, remote I/O, software

HMI touch screens, displays, panel PC's, industrial computers

The world's most advanced HMI/SCADA solutions: SCADA, RT visualization, edge to cloud solutions, data analytics-SPC, OEE and AI

Smart factory and industry 4.0/IIoT solutions

Motors with integrated drives and controllers, linear actuators

High precision planetary gearboxes, spiral bevel gear boxes, servo applications

Rail brakes, rod locks, brakes, clutches, gearboxes, rotaries

Shaft couplers, torque limiters, line shafts, bellows couplings, miniature couplings

Gripping & locating; large industrial grippers, locating pins, clamping pins

Relays, power supplies, switches, panel meters, pushbuttons indicators

Safety controllers, relays, E-stop, sensors, contact strips & locks

Modular remote I/O terminals, vision systems

Push-in metal fittings, DOT fittings, valves, cylinders, FRL's

Gripping & EOAT devices for collaborative robots; vacuum, finger, magnetic, sensing, vision, sanding, palletizing

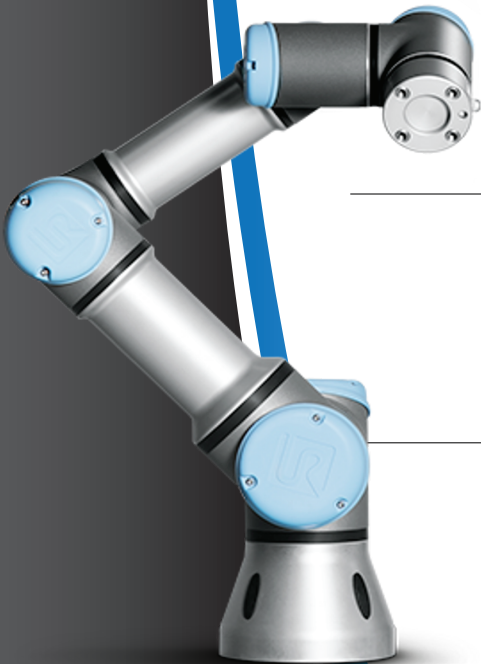

Palletizers, pro-feeder robot cells, part feeding carts

Intuitive software and hardware, robot productivity tools

Gripping and EOAT devices for collaborative robots; finger, vacuum, magnetic, sanding, screw-driving

Supporting Michigan and Northern Ohio

810.732.1970

Hydraulic & Lubrication

Leak & pressure sensing connectors, quick test connectors & valves

Hydraulic cylinders, lifting products, pumps & power units

Hydraulic power units, pumps, and valves

Hydraulic ball valves, check valves, flow controls, and power units

Hydraulic & pneumatic NFPA cylinders, manipulators, power units, boosters & accumulators

Fixed and variable displacement pumps, high pressure valves

Hydraulic, valve manifold products

Michigan and Northern Ohio's Premier Automation and Fluid Power Source

It is our goal to be an expert in everything that we sell so that we can be a better asset to our customers. We offer products that work well together to provide our customers with total solutions. We value our knowledge and expertise as one of our keys to success in helping customers achieve their objectives.

We Offer:

- High level technical and application support
- Engineering, sizing, print review and value add solutions
- Vendor managed inventory
- Training and educational seminars
- Value add center-value add solutions, POC, kitting
- Quick-ship programs
- 24 hour customer support!
